Highlights

Easy to empty dust container

The dust container is perfectly designed to dispose dust without creating a dust cloud. Thanks to its unique shape and smooth surface, dust is collected at one side of the container and evenly glides into the dust bin.

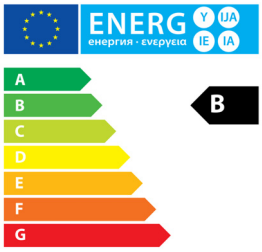
PowerCyclone 4 Technology

The PowerCyclone 4 technology delivers best cleaning rsults in one go through highly efficient steps: 1) Air enters fast into the PowerCyclone thanks to the straight and smooth air inlet. 2) The curved airpass quickly accelerates the air upwards in the cyclonic chamber to separate the dust from the air.

Extra long ergonomic grip

This ergonomically shaped grip is convenient in use. Its extra long design gives you farther reach, so you can easily clean hard to reach places.

Energy efficiency class B



This vacuum cleaner is engineered to achieve full performance with an energy efficiency class B.

EPA filtyer system

The pleated EPA filter has a large filter surface and good filtration performance. In combination with the cyclonic airflow, this prevents it from cloggin fast and gives you better and longer-lasting filtration results.

TriActive nozzle

The TriActive nozzle applies 3 cleaning actions in one go: 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down. 2) It sucks up big bits with its larger opening at the front. 3) It picks up the dust and dirt closely alongside furniture and walls with its left and right side air channels.
